

Conference on AI inference in Practice: Are you familiar with basic aspects of Deep Learning? Great! You will have the opportunity to join us during one-day conference focused on Deep Learning models in action. In this track you will learn how to use models in real life scenarios, what edge platforms are available on the market for AI inference and how to implement a model in a mobile application (e.g. in Android).

[Registration Form for a Conference only](#) (6.07). By filling out the registration form you accept the Conference Registration Rules listed [here](#). Please review them before registration.

This is a preliminary schedule. Please stay tuned for further updates!

	Mon, 06.07.2020
9.00-9.30	International Summer School on Deep Learning Opening Ceremony
9.30-10.10	Keynote 1 NVIDIA - From servers to Edge
10.10-10.40	Coffee break
10.40-11.15	Conference 1 Peter Bloomfield: Machine Intelligence Garage and practical implementations of AI in the UK (Digital Catapult, UK)

11.15-12.55	Conference 2 11.15-11.40: Krzysztof Kwaśniewski: Google TPU (Google, Poland) 11.40-12.05: TBA 12.05-12.30: Piotr Lewalski: NVIDIA inference platforms (NVIDIA, Poland) 12.30-12.55: Practical AI by IBM	12.55-14.00	Lunch
14.00-15.30	Conference 3 14.00: Machine Learning and Android 14.30: AI for iOS 15.00: Tensorflow.js		
15.30-16.00	Coffee break		
16.00-17.30	Conference 4 16.00 - 16.20: Maciej Rygielski: How to spot an AI Image Recognition opportunity in the industry and retail? (AI Factory, Poland) 16.20 - 16.40: TBA 16.40 - 17.10: Łukasz Osowski: Healthy Life Expectation and AI (Lab4Life, Poland) 17.10 - 17.30: Voicelab AI		
17.30-19.00 Evening Meetings and Activities	Networking and social event
